The PrintMaster GS-491K hot foil stamping machine is designed to stamp on material up to 1/8" thick (single mounted 11x14s). With automatic foil advance, this machine makes quick work of tedious jobs such as stamping proofs and print orders. It is available with either a type holder or an adaptor for engravings such as studio logos, signatures, etc. Compact and reasonably priced, the PrintMaster is a favorite of many photographers, many studios owning several. Each PrintMaster GS-491K comes with 1 roll of bright gold foil, and instructions.

Some outstanding features: Imprints on smooth and lightly textured surfaces including all photographic papers, transparency mounts, business cards, matchbooks, napkins, and more! Materials you can print on include vinyl, Mylar, paper, plastics, etc.
